Be part of Europe's collaborative effort to improve dementia and frailty care.

The **COMFORTage Community Forum (CCF)** is an open space for dialogue, innovation, and collaboration among all those working to improve the quality of life of older adults across Europe.

Through COMFORTage, we aim to build a shared ecosystem that connects healthcare professionals, researchers, policymakers, caregivers, patients, and digital innovators — all contributing to better, more integrated care models for dementia and frailty prevention.

Want to get involved or stay informed?

It's easy — your voice matters.

You decide how much you want to take part:

Why join the CCF?

Because ageing well is everyone's business.

The CCF brings together insights from medicine, social science, artificial intelligence, policy, and real-world care to co-create solutions that work — for people, professionals, and systems.

By becoming part of the Forum, you can:

- Contribute ideas and feedback to ongoing discussions and projects.
- Join webinars and thematic activities on dementia, frailty, skills, and AI innovation.
- Network with European experts, organisations, and citizens committed to advancing healthy and active ageing.

Together, we can turn innovation into impact — and collaboration into change.
